UNIVERSITY OF MARYLAND
COLLEGE PARK 20742

OFFICE OF THE CHANCELLOR

Dear "Greeks":

Today, more than ever before, there is a need on university campuses for a sense of community. The fraternities and sororities make an important contribution to the growth of a community spirit here at the University of Maryland. I salute you for the role that you are playing and encourage the members of the fraternity and sorority system to continue to take the initiative in building the kind of community we need.

It is a pleasure for me to extend greetings and very best wishes to the fraternity men and sorority women of the University of Maryland.

Cordially,

C. E. Bishop

C. E. Bishop
Chancellor

Fellow Greeks,

Our system is composed of actives and alumni, with the actives providing life itself while alums contribute continuity and various kinds of assistance. Together these Greeks can produce a vigorous and continuing fraternal presence on campus for the benefit of all.

In a sense the life style and traditions of today's Greeks go back a hundred generations to the Classical Greeks whose name we bear. Those Greeks of the Golden Age had a zest for life and excitement that has hardly been parallelled since. The following account, which was published a few years ago in a national magazine, describes our predecessors.

They were so eager and exciteable that they had to mount the slogan "nothing to excess" in big letters at Delphi to remind them to be less excessive. But they did have one idea, so noble and profound, that a whole new age dawned in its light. It was simply that man's nature, even in its mortality, is the glory of creation, and that man has a noble purpose: to live at the highest possible pitch of human performance—physically, morally and intellectually.

Those words are high sounding, but if you frame the thoughts in our own vocabulary see if they don't fit.

Dan Whiteford
Alumni I.F.C. President

Gary Greek is dead. He died sometime in the early or mid 1960s. He now lies turning in grave with wingtips, tweed, and goldfish in gullet' . . . God rest his soul. His tradition, however, will long be remembered.

The Greek of 1971, a study of contrast and controversy, can no longer be stereotyped. Diversity, is now so predominant a characteristic of the system, even Greeks cannot easily recognize fellow members of the system on campus.

To the independent, a greek is the eccentric student who lives in a gothic structure in the suburb of campus, separated by a strategic Route 1. However, close observation will show his presence in every facet of student life. From the Chess Club to DRUM, the fraternity man occupies membership as well as leadership.

Identified no longer strictly by a fraternity pin or blue nylon jacket, the Greek leads a life without traditional boundaries representing a selective yet complete cross section of life. He may be seen in a student-faculty conference brandishing sheepskin and edwardian attire, at the Town Hall smashing glasses, or ass-down in the height of a DC demonstration on 16th street.

Brotherhood, an obscure term, not easily understood by non-greeks, is the common denominator, which allows unity and free flow of thought among this diverse group.

An alumni of 1956 reminiscing, strolling around the row may wonder what the hell has come of the world and his old frat', Gary may twist in his grave, and many will call it dead, but the system lives in the pages that you will turn in this book and many more books to come.

TIFFANY

I thank everyone who has helped me with this yearbook but most of all I thank the entire Greek System for being here for all of us to enjoy.

Fraternally,

Rusty Clark
Greek
